

ENVIBOOK

Wood-containing, cream, uncoated, unpigmented paper with high opacity and smoothness, made of 100% thermomechanical pulp (TMP). Applications: Used for all publications where a natural, eye-friendly shade, high opacity, and low weight of the final product play an important role. It is ideal for printing fiction books, brochures/newsletters, manuals, etc.

Printing techniques:*CSWO (Coldset Web Offset)**INKJET***Technical parameters declared by the manufacturer:**

<i>PARAMETRER</i>	<i>Unit</i>	<i>Value</i>	<i>Norm</i>
Grammage	<i>g/m²</i>	60	<i>ISO 536</i>
Bulk	<i>cm³/g</i>	2.0	<i>ISO 534</i>
Brightness	<i>%</i>	73	<i>ISO 2470-2 (C/2°)</i>
A* (cielab, d65/10°)		-0,5	
B* (cielab, d65/10°)		8,5	
Opacity	<i>%</i>	92	<i>ISO 2471</i>

Storage: Store in rooms with 50% humidity and at room temperature between 19–23°C. In the case of storage in non-air-conditioned rooms, an acclimatization period in the pressroom is essential. The factory packaging/wrapping should be opened immediately prior to printing.
